# Main characters

- ◆ Different legal liability from other suspected monopolistic behaviors
- ◆ Relatively simple principle of provisions on legal liability.
- ◆ All sanction of cases are fines
- ◆ Fines of less than 500,000 yuan, mainly between 150,000–400,000

# Difficulties in law enforcement

## **Low fines and insufficient deterrent power**

Cases:

- New United Group and Bombardier Sweden set up joint venture
- Unisplendour Group's acquisition of RDA

# Difficulties in law enforcement

**Differences in the amount of fines are relatively small and it is difficult to reflect the specific circumstances of illegal behaviors**

Cases:

- New United Group and Bombardier Sweden set up joint venture
- Cummins and Kang Hao set up a joint venture

# Difficulties in law enforcement

## **Undiscriminated illegality, single type of liability**

- For example: For cases in which there may be exclusion of restricting the impact of competition in the case of non-legal reporting, should they all be ordered to reinstate?

# Improvement direction and issues

- ◆ **Ensuring effective implementation of concentration of undertakings system:** should the legal liability of illegal implementation of concentration of undertakings be distinguished from other monopolistic behavior?
- ◆ **Improving administrative deterrence:** Should the fine limit be increased? Is it possible to calculate the fine according to the turnover? whether or not set up a daily fine?
- ◆ **Adding the types of illegal situation and legal liability:** Should there be additional types of legal liability, such as warnings, additional restrictive conditions, etc.?

Thank you!
